

MODEL 90XP

9" Capacity Hand-Fed Chipper

The Model 90XP has a distinguished career of over 35 years, serving tree care professionals, rental companies and municipalities needing a **productive, cost-effective, and durable** chipper. Whether working within brush clearing, utility line clearing, municipal tree maintenance, or rental duties, this fleet-favorite features a wide throat opening and Bandit's **proven Slide Box Feed System**. It's extremely productive and efficient in processing large amounts of brush at once, as well as big limbs and small trees.

COMPACT AND EASY TO TOW

Weighing just under 4,000 pounds, the Model 90 is a favorite among rental and municipal agencies as it can easily be maneuvered and towed. With its compact stature and ability to chip 9" diameter material, the Model 90 is a viable option for a variety of applications.

EASY TO FEED

The Model 90 features a 45" wide infeed hopper with 30" fold down infeed tray that slopes at 3 degrees. The powerful dual wheel feed wheel system consisting of two 15.9 CID motors pull, crush, and compress hard-to-manage bunches of leafy and limby brush eliminating sweat from extra sawing or trimming.

MAINTENANCE FRIENDLY

The most common maintenance items are easy to access on Bandit chippers, so daily maintenance is quick and simple. Bolt-in knives are easy to change through the chipper hood, and all service areas are conveniently located, including all grease points.

45-DEGREE CUTTING ANGLE

The chipper disc in the Model 90 sits at a 45-degree angle to the feed wheel making it effective at chipping logs and brush all while requiring less horsepower and fuel.

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

WATCH IT RUN!

MODEL 90XP FEATURES

- **Last Chance Cables (standard)**
Stops/reverses the feed wheel when pulled in case of an emergency
- **Operator Safety Control Bar (standard)**
Wraps around 3 sides of the infeed chute & controls the direction of feed wheels
- **Wood Pusher Paddle (standard)**
Used to feed small wood debris into the chipper
- **Chipper Hood Pin w/Padlock (standard)**
Prevents unauthorized access to the disc or drum
- **Chipper Hood Engine Disable Plug (standard)**
Prevents engine from being started without the hood pin in place
