BOMAG
FAYAT GROUP

BOMAG Genuine Parts Kits.

Winter time is service time with BOMAG Genuine Parts kits! Order now & benefit!

Practical, reliable and quick: Prepare your machine for the next season - we will help you! Our **BOMAG Genuine Parts kits** offer you all the original parts you need in a practical set in proven BOMAG quality. You can therefore be certain that your machine will be ready for action again in no time at all.

Save time when it's most valuable and benefit from our special offer prices from **01/12/2012 to 31/03/2013**.

BOMAG Genuine Parts Kits for Milling Machines

Service Kits for Milling Machines

The BOMAG genuine service kits are matched to the machine's maintenance schedule to ensure good functionality long-term. All of the parts needed for servicing, including documentation, come in a box:

1000h service kit: air filter, including safety cartridge, hydraulic and engine oil, and fuel filter, and primary fuel filter, V-belts, screw plug, grease cartridge and seals.

500h oil service kit: engine oil filter, screw plug, grease cartridge and seals.

1000h Service Kits

Specification	Machine	P/N	Required quantity per machine
1000h Service kit	BM 500/15 BM 600/15	770 882 00	1

Crawler Track Units

BOMAG genuine crawler track units are made of hard-wearing components that provide for optimum machine performance and grip, as well as cost-effective work even with the toughest soil conditions. The special manufacturing technology provides for a long service life and great strength.

Specification	Machine	P/N	Required quantity per machine
Crawler track unit	BM 1000/30 (Tier 2) BM 1000/30 (Tier 3) BM 1200/30 (Tier 2) BM 1200/30 (Tier 3) BM 1300/30 (Tier 2) BM 1300/30 (Tier 3)	309 952 039	4

Crawler track unit with track pads, premounted, kit	BM 2000/60	836 010 90	4

Please observe the machine-specific maintenance schedules.

Track Pads

BOMAG genuine 3-stage track pads made of steel, with a cured polyurethane coating, have been specially designed for a long service life and resistance to wear. They are characterised by their great resistance to bending and breaking. Track pads can be precisely, quickly and easily fitted with the high-strength pad bolts provided. The crawler track unit kit includes the right number of track pads for a crawler track unit.

Specification	Machine	P/N	Required quantity per machine
Track pad kit	BM 1000/30 (Tier 2) BM 1000/30 (Tier 3) BM 1200/30 (Tier 2) BM 1200/30 (Tier 3) BM 1300/30 (Tier 2) BM 1300/30 (Tier 3)	836 010 79	4
Track pad kit	BM 1500/50 BM 2000/50	836 011 19	4
Track pad kit	BM 2000/60	836 010 91	4

Track Rollers

BOMAG genuine track rollers are precisely matched to the crawler track unit and designed for a long service life. The track roller kit contains one track roller and appropriate assembly material.

Specification	Machine	P/N	Required quantity per machine/ crawler track unit
Track roller, single, kit	BM 1000/30 (Tier 2) BM 1000/30 (Tier 3) BM 1200/30 (Tier 2) BM 1200/30 (Tier 3) BM 1300/30 (Tier 2) BM 1300/30 (Tier 3)	836 011 20	8/2
Track roller, single, kit	BM 1500/50 BM 2000/50	836 011 20	16/4
Track roller, single, kit	BM 1000/30-2 BM 1200/30-2 BM 1300/30-2	836 011 39	8/2
Track roller, single, kit	BM 2000/60	836 010 92	16/4

Scrapers

BOMAG genuine scraper segments are designed for the precise loading of milled material. The special scraper segments on the right and left of the scraper blade leave the edges clean-cut. The scraper kit contains assembly materials and scraper segments made of hard metal that smooth the milled surface by shearing off the cambered asphalt ridges.

Specification	Machine	P/N	Required quantity per machine
Scraper kit 300 mm	BM 500/15	882 010 52	1
Scraper kit 400 mm		882 010 53	1
Scraper kit 500 mm		882 010 27	1
Scraper kit 600 mm	BM 600/15	882 010 28	1
Scraper kit 1000 mm	BM 1000/30	836 011 45	1
Scraper kit 1200-1300 mm	BM 1200/30 BM 1300/30	836 011 06	1
Scraper kit 1500 mm	BM 1500/50	836 011 27	1
Scraper kit 2000 mm	BM 2000/50 BM 2000/60 (Tier 2) BM 2000/60 (Tier 3)	836 010 96	1
Scraper kit 2000 mm	BM 2000/60-2	836 010 81	1

Retainers

The BOMAG genuine retainer segments are made of highly wear-resistant material to ensure the retainer's long-term functionality.

The retainer segment kit includes all necessary retainer segments, including assembly materials.

Specification	Machine	P/N	Required quantity per machine
Retainer kit 500 mm, complete retainer	BM 500/15	882 010 29	1
Retainer segment kit 600 mm	BM 600/15	882 010 30	1
Retainer segment kit 1000-1300 mm	BM 1000/30-2 BM 1200/30-2 BM 1300/30-2	836 011 07	1
Retainer segment kit 2000 mm	BM 2000/60-2	836 010 38	1

Side Plates

Wear protection segments are used to minimise edge protection wear on the side of the milling drum housing. These are made of wear-resistant material and are easy to exchange. The wear protection segments are available in the kit, including assembly materials.

Specification	Machine	P/N	Required quantity per machine
---------------	---------	-----	-------------------------------

Side plates			
Side plate kit	BM 1000/30 (Tier 2) BM 1000/30 (Tier 3) BM 1200/30 (Tier 2) BM 1200/30 (Tier 3) BM 1300/30 (Tier 2) BM 1300/30 (Tier 3)	836 011 46	1

Conveyor Belts

The particularly powerful and low-wear, BOMAG genuine conveyor belts ensure that the milled material is completely picked up without any losses and conveyed to the discharger.

Specification	Machine	P/N	Required quantity per machine
Discharge conveyor	BM 500/15 BM 600/15	059 500 12	1
Discharge conveyor	BM 1000/30 BM 1200/30 BM 1300/30	308 601 045	1
Discharge conveyor	BM 1500/50 BM 2000/50 BM 2000/60	308 601 044	1

Loading conveyor	BM 2000/60	308 602 015	1

Garlands & Return Idlers

Along with the conveyor belt the BOMAG genuine garlands and return idlers form a system that ensures that the milled material is reliably conveyed from the drum housing to the lorry. The components are precisely matched and perfectly configured in terms of friction coefficients, cost-effectiveness and quiet operation.

Specification	Machine	P/N	Required quantity per machine
---------------	---------	-----	-------------------------------

Garlands			
Garland kit for discharge conveyor	BM 500/15 BM 600/15	882 010 34	9

Rubber Seals

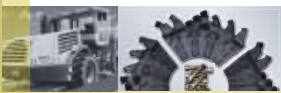

The original BOMAG rubber seals guarantee the safe transport of milled material inside the conveyor system and prevent milled material from falling out.

The rubber seal kit includes all rubber elements required for the discharge conveyor, loading conveyor or delivery hopper (delivery without assembly material).

BOMAG Genuine Parts kits

- include all of the single parts required by the individual operating and maintenance manual in a set. A check list and illustration will help your employees to carry out the servicing work quickly.
- will simplify the ordering process. Simply provide the serial number and number of BOMAG Genuine Parts kits to receive all the individual parts you require.
- pay off. Benefit from the more attractively priced BOMAG Genuine Parts kits compared to ordering the parts individually. You will save both time and money.
- are completely made up of 100% BOMAG Genuine Parts. This will ensure both your machine's performance and long service life, as well as allow you to benefit from all of the warranty advantages. BOMAG Genuine Parts are high quality, reliable and perfectly matched to your machine.

Service Training

Please observe the machine-specific maintenance schedules.

Rubber to metal bonded rail & rubber buffers

BOMAG genuine rubber buffers have been specially developed and matched to individual types of rollers. The buffers have long service lives achieved by optimised geometry and the subsequent, more homogeneous distribution of tension. The high quality natural rubber buffers isolate the exciter vibrations of the drums from the roller frame, all fitted parts and the operator's platform. They reduce the transmission of structure-borne noise and provide optimum driving comfort without any disturbing vibrations.

Machine	Specification	T/N	Required quantity per machine
Rubber to metal bonded rail			
BW 211 - BW 214	Rubber to metal bonded rail	061 801 00	4
BW 216 - BW 218	Rubber to metal bonded rail		6
BW 219 - BW 226	Rubber to metal bonded rail		8
BW 332	Rubber to metal bonded rail		12
Rubber buffer

BW 211 - BW 213 D	Rubber buffer		9
BW 213 DH - BW 214	Rubber buffer		12
BW 216 - BW 226	Rubber buffer		16
BW 332	Rubber buffer		24
BW 177 - BW 332	Rubber buffer / cabin mount	061 803 14	4
BW 177 - BW 332	Rubber buffer / cooler mounting	061 160 81	2

Smooth drum scraper

The hard-wearing original BOMAG contact scrapers at the front and rear ensure the drum surfaces are kept clean thanks to the high quality polyurethane. The scrapers can be added as required easily and quickly.

Machine	Specification	T/N	Required quantity per machine
BW 177 - BW 179	Scrapers	580 302 34	4
BW 211 - BW 226	Scrapers	580 302 57	4

Tamping feet scrapers

Patented and unique: the scraper teeth are grouped together on bars and can be centrally adjusted in no time at all. The special teeth profile minimises friction losses. The teeth caps are made of highly wear resistant, hardened manganese steel.

If the case arises, they can be exchanged easily and quickly by means of a knockout punch or assembly mandrel.

Machine	Specification	T/N	Required quantity per machine
BW 177 - BW 179	Scraper tooth replacement cap for PD scrapers	580 305 21	14

Sprinkler nozzles

Please observe the machine-specific maintenance schedules.

BOMAG genuine sprinkler nozzles are perfectly protected from dirt by the integrated primary filters. Long service life is provided by the use of high quality synthetic materials. Nozzles and filters can easily be replaced on site manually without tools. To prevent unnecessary downtimes original spare nozzles should be available on every roller. Sprinkler nozzles and primary filters are both available as single packs or in packs of 25, 50 and 100.

Machine	Specification	T/N
BW 141 - BW 203	Sprinkler nozzle, single	055 560 52

▼	Sprinkler nozzle, 100 pcs.	055 560 52C100
▼	Primary filter, single	055 560 50
▼	Primary filter, 25 pcs.	055 560 50C25
▼	Primary filter, 50 pcs.	055 560 50C50
▼	Primary filter, 100 pcs.	055 560 50C100

Scrapers

The hard-wearing BOMAG genuine scrapers at the front and rear ensure the drum surfaces are kept smooth and clean thanks to the high quality polyurethane.
