STANDARD FEATURES

The Dingli JCPT0507C is a compact, electric-powered scissor lift designed to deliver safe and efficient access in tight workspaces. With a maximum working height of 5 meters and a narrow width of just 0.75 meters, this model is ideal for navigating through doorways and confined areas without compromising on stability or performance.

- Charging Indicator
- Lanyard Attachment Point
- Tie-Down And Lifting Points
- Platform Load Sense System
- Emergency Stop Button

IPAF Category 3a

Do you hold a valid operator's licence?

The Powered Access Licence (PAL) Card is recognised worldwide as proof of platform operator training to the highest standard.

It is issued by the International Powered Access Federation (IPAF) to platform operators who successfully complete a training course at an IPAF approved training centre.

Quick checklist for employers and operators using powered access machines:

- ✓ I have an IPAF PAL card
- ✓ Date is still valid
(Licence expires after 5 years)
- ✓ All categories for the machine's being used are listed on the PAL card (e.g. 3a, 3b, PAV).

If you can answer yes to all three, you're good to go!

If not, please call us to discuss your requirements and arrange a training course.
