

Little Giant MegaLite 17 Ladder with Tip & Glide Wheels

Brand: Little Giant

Dimensions – Height: 15 ft.

Dimensions – Width: 24 in.

Duty Rating: Type IA (300 lb.)

Material: Aluminum

Maximum Reach: 17.9 ft.

Number of Steps: 12

Weight: 31 lb.

Weight Capacity: 300 lb.

Each side of the MegaLite telescopes independently, giving you the option of several sizes of stepladders, from 4 to 7 feet. You can also adjust one side to work on staircases and uneven surfaces, or as a 90-degree stepladder.

The Triple-Locking Hinge allows you to use the ladder as a stable, wide-based, multi-height extension ladder from 9 to 15 feet.

Finally, the inner and outer ladder assemblies separate to form two trestles for a time-saving scaffolding system. Just add a sturdy plank or an optional aluminum telescoping plank.

The Little Giant MegaLite is the next generation of multi-use ladder systems.

Tip & Glide™ Wheels:

Tip & Glide™ Wheels make your Little Giant MegaLite even easier to use. Why carry your ladder around when you can wheel it wherever you need to go.
