CLIMB ON

Get Stuff Done

Little Giant builds products to help people “**Get Stuff Done**”. People have lots of lots of “stuff” to get done and much of that “stuff” is high and hard to reach.

Little Giant products help you get it done **fast** and **easy**.

For all the stuff...

Little Giant®

THE EVERYDAY KILLER

Even the simplest, everyday tool can be deadly when we misuse it. No sane person would swim unprotected in shark-infested waters, walk alone in tiger country or use a chainsaw carelessly. What would you say if we told you there is a seemingly harmless everyday tool that causes more deaths than sharks, tigers, chainsaws and even plane crashes combined – ladders.

We use ladders every day and we often forget about the risks involved and instead worry about shark attacks, plane crashes, lightning strikes or even a hurricane. Remember, at least one person dies every day while using a ladder. Over 400 last year.

THE ONLY ACCEPTABLE NUMBER IS 0.

**"LITTLE GIANT® - THE SAFEST, STRONGEST,
MOST VERSATILE LADDERS IN THE WORLD."**

A stylized illustration of a green tiger in a pouncing pose, facing left. To its right, a red ladder is shown from the side, with a red circle at the top. The background is dark and textured.

CONQUEST™ 2.0 PRO

The Little Giant® Conquest™ 2.0 PRO is the ladder. The only ladder you'll likely ever need to buy! With built-in side-mounted stabilising legs that work on uneven ground and a swivel foot that easily handles flat or soft ground. That's all at the bottom of the ladder. The top has new safety features, including the side-mounted Safety Rails, for use as walkthrough rails to get up and onto a roof, for example, or switch to use the Safety Rails as a wide ladder standoff significantly increasing stability at the top.

Load Capacity 150kg.

1. ALL-TERRAIN OUTRIGGERS

Side-mounted levellers for use on uneven ground.

2. SAFETY RAILS

Side-mounted on the top section of the ladder, these rails switch from storage to Ladder Standoff position, or use as Safety Rails to exit the ladder safely onto a roof.

3. TIP & GLIDE™ WHEELS

Tip & Glide™ wheels help you move the ladder easily from job to job.

CONQUEST™

ALL-TERRAIN

An intense job calls for an intense tool. The Little Giant® Conquest™ All-Terrain ladder helps you complete those heavy-duty tasks. Brimming with safety features, including the side-mounted stabiliser bars that keep you level, no matter what the ground you're working from looks like. The Tip & Glide™ wheels help you move the ladder quickly from job to job. The Conquest™ All-Terrain is designed to help you work quickly and effectively, since it can be used in multiple positions. Use the Conquest™ in the stepladder, extension, staircase, 90-degree or trestle-and-plank scaffolding positions, depending on the needs of the job.

Load Capacity 150kg.

1. ALL-TERRAIN OUTRIGGERS

Side-mounted stabiliser bars are independent of each other, so can be used to level the ladder on uneven ground.

2. PALM BUTTONS™

Move from storage to A-frame to extension ladder configurations by pushing the ladder's palm buttons.

3. RAPID LOCKS®

Gently twist the Rapid Locks®, and then slide the stiles of the ladder to the desired size. Twist the Rapid Locks once more to lock the ladder stiles in place.

LEVELER™

Using a ladder outdoors has always had its challenges, but the Little Giant® Leveler™ is an adjustable leg ladder that changes that experience. Whether you work on uneven ground or set up your ladder on a staircase, the Leveler™ can handle it without the need for a leveling accessory.

Load Capacity 150kg.

1. RATCHET™ LEG LEVELERS

Uneven terrain? Not a problem. This is a ladder with adjustable legs. With the Ratchet™ leg levelers, you can adjust the ladder's legs in seconds, allowing you to stabilize the ladder on unlevel ground.

2. NON-SLIP FEET

The Leveler's sturdy, non-slip feet keep your adjustable leg ladder in place while you work. Complete your tasks with total confidence.

3. PALM BUTTONS

Move from storage to A-frame to extension ladder configurations by pushing in the ladder's palm buttons.

4. RAPID LOCKS®

The Rapid Lock® adjusters on the ladder's rails allow for quick and easy height and position adjustment.

KING KOMBO™ 3 in 1

The Little Giant® King Kombo™ Industrial is the world's first and only 3-in-1 extension ladder, leaning ladder and stepladder combination, in one lightweight package. King Kombo™ with ultra-heavy-duty feet, seriously aggressive tread for elite traction and durability for harsh industrial environments. King Kombo™ also brings a tough corner, pole, and stud gripping V-bar for the extension ladder position. This heavy-duty grip conforms to inside and outside corners and even offers protection for damageable leaning surfaces like paint, drywall, stucco and round poles. Fitted with the patent-pending Ground Cue® an audible and tactile signal to let you know you when you have reached the bottom step of the ladder. Load Capacity 150kg.

HYPERLITE® & SUMOSTANCE®

The HyperLite® SumoStance® is the only extension ladder in the world with Little Giant's patented SumoStance® levelling outrigger system, which more than doubles the ladder's base width and increases side-tip stability. The SumoStance®'s intuitive safety features help ensure a safe, stable set-up for any job on almost any surface and are lighter than any other manufacturer's lightest ordinary extension ladders.

Load Capacity 150kg.

1. DOUBLE-PULLEY

Side mounted double-pulley reduces force required to raise the ladder and removes potential tripping hazard.

2. SURE-SET™ FEET

use in either spiked or rubber foot position for maximum traction on all surfaces.

3. WIDE-FLARED LEG LEVELERS

The SumoStance® utilizes wide-flared leg levelers to increase the stability of your ladder.

SAFETY CAGE®

It's not a ladder, it's the Little Giant® Safety Cage®. With the Cage, you can access workspaces that would typically require tying-off, scaffolding or lifts, all with less time and labor than other climbing solutions. The Cage has a comfortable standing surface with a fully enclosed toe kick and wraparound enclosure, making it faster, safer and less expensive than many scaffolding or lift options. Plus, because you can work hands-free, the Safety Cage® is perfect for jobs like maintaining large HVAC equipment or installing stage lighting. Load Capacity 150kg.

1. GUARD RAIL SYSTEM

Safety Cage® eliminates the need to tie-off, helping you get your work done quickly.

2. ADJUSTABLE OUTRIGGERS

With adjustable outriggers, the Cage has increased side-tip stability.

3. GROUND CUE®

Ground Cue® is Little Giant's integrated bottom rung alert system. Upon stepping on the bottom rung, Ground Cue® makes an audible "click", letting you know that you have safely reached the bottom of the Cage.

COMPACT CAGE®

At Little Giant®, we solved the tie-off problem. In many industries, it is a requirement to tie-off at an anchor point when working past a certain height. This safety-promoting measure can be a difficult standard to maintain, though, which is why Little Giant® created the Compact Safety Cage®.

Load Capacity 170kg.

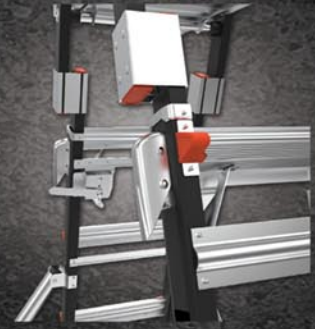

1. FREE UP YOUR HANDS WHILE YOU WORK

The fully enclosed guardrail system on the Compact Cage® eliminates tie-off requirements.

2. WIDE PLATFORM

A large standing platform that provides additional comfort for users.

2. ROCK LOCKS®

The Rock locks® adjusters on the ladder's rails allow for quick and easy height and position adjustment.

4. YELLOW WHEEL LIFT ACCESSORY

Wheel Lift casters allow for safe, easy movement, even when Compact Cage® is fully deployed.

5. ADJUSTABLE OUTRIGGERS

Adjustable outriggers increase the footprint of the Cage, adding additional side-tip stability.

6. TIP & GLIDE™ WHEELS

Tip & Glide™ wheels help you move the ladder easily from job to job.

ADJUSTABLE SAFETY

CAGE™

Many industries require professionals to tie off at an anchor point when working at certain heights. This standard helps keep people safe, but it can be a difficult standard to maintain. The Little Giant® Adjustable Safety Cage™ eliminates the need to tie-off, making jobs faster, safer, and less expensive than many scaffolding options.

Load Capacity 170kg.

1. GUARDRAIL SYSTEM

The fully enclosed guardrail system on the Adjustable Safety Cage™ eliminates tie-off requirements.

2. YELLOW WHEEL LIFT™ ACCESSORY

Wheel Lift™ casters allow for safe, easy movement, even when Adjustable Safety Cage™ is fully deployed.

3. ADJUSTABLE OUTRIGGERS

Adjustable outriggers increase the footprint of the Cage, adding additional side-tip stability.

MIGHTY LITE™

The MightyLite™ Step Ladder is designed to help reduce or prevent the three leading types of ladder related injuries. By reducing weight, reduces the likelihood of neck and shoulder pain from carrying heavy items. Dangerous falls from standing on the top cap - the MightyLite™ comes with a large standing platform that provides additional comfort for users. Each Little Giant® MightyLite™ comes with the Ground Cue® built-in. This gives users an audible-sensory warning that the last step is reached and it is safe to step off the ladder. Ideal for use in noisy environments. Fibreglass Step Ladder range incorporates a multi-functional Tool Tray™ with non-conductive stiles, making them ideal for working around electricity. Load Capacity 150kg.

1. GROUND CUE™

Fitted with Little Giant's Ground Cue™ to minimise falls.

2. LARGE STANDING PLATFORM

The MightyLite™ comes with a large standing platform that provides additional comfort for users.

3. INTEGRATED MULTI-FUNCTION TOOL TRAY™

Fibreglass Step Ladder range incorporates a multi-functional Tool Tray™ with non-conductive stiles, making them ideal for working around electricity.

Not every task requires a large extension ladder. Made from lightweight aluminum, the Little Giant® Xtra-Lite Plus™ stepladder simplifies your daily tasks, giving you a versatile tool for any occasion. Meeting or exceeding all EN131 standards, the Xtra-Lite Plus™ ladder is rated 150kg work load capacity.

1. ROTATING SAFETY HANDRAIL

The Safety Handrail offers an extra touchpoint that gives even more stability and security while working on the aluminum stepladder.

2. TOOL TRAY™

The integrated Tool Tray™ on the top cap allows you to place your phone, hammer, drill or other materials on the tray for easy access while working.

3. XL STANDING PLATFORM

This extra wide standing platform provides a large, comfortable standing surface that keeps your feet feeling great during those jobs that require a little more time on the aluminum stepladder.

SAFETY STEP™

The Little Giant® Safety Step™ is a unique combination of strength and simplicity featuring slip-resistant steps that give you unmatched comfort and stability. The Safety Step™ is constructed with super-strong, lightweight aerospace grade aluminum and operates so easily that you can open and close it with one hand. Its slim storage depth (12cm) will let you store it just about anywhere. Engineered for professional and industrial use, the Safety Step™ is tested to hold up to 150kg on each step. This tough, compact step-ladder can handle just about any task, from the lightest office chore to the heaviest industrial job.

Load Capacity 150kg.

1. WIDE "PLATFORM" STYLE TREADS

The Safety Step™ is designed for comfort. The non-slip steps prevent you from losing your balance.

2. FOLDING SAFETY BAR for more stability

3. TOOL TRAY™

JUMBO STEP™

The new Little Giant® Jumbo Step™ is the ultimate combination of light weight, stability and strength. The Jumbo Step™ 21.5cm wide, slip-resistant treads and stair-like design provide unmatched comfort and stability. Ideal for jobs that require both frequent climbing up and down, as well as those that require long periods of standing. The Jumbo Step™ design makes working at heights as comfortable as standing on the ground. Load Capacity 150kg.

1. ROTATING SAFETY HANDRAIL

The Jumbo Step™ has a rotating safety handrail for added stability. This feature helps step stool users to feel more secure and confident while working at heights.

2. TOOL TRAY™

Keep your tools close at hand. The integrated Tool Tray™ on the handrail allows you to place your phone, hammer, drill or other materials on the tray for easy access while working.

3. LARGE PLATFORM STEPS

With the Jumbo Step's ultra-wide steps, it feels like walking up a staircase, not a ladder. It is made from lightweight, aircraft grade aluminum and its steps feature a safe, non-slip surface.

SURE STEP™

No hassle, no messing with latches and no pinched fingers. The Sure Step's nylon spreader straps let gravity do the work: just grab one of the top steps and let the stool fall open or closed.

The Sure Step™ features treaded full-box steps that are climbable on either side. Plus, the split top step means you have a wider, more stable standing platform when you're from the ground.

Load Capacity 170kg.

1. QUICK SETUP

No hassle, no messing with latches and no pinched fingers. The Sure Step's nylon spreader straps let gravity do the work: just grab one of the top steps and let the stool fall open or closed.

2. OVERSIZED FEET

Set up anywhere with confidence. Slip-resistant, heavy duty oversized feet keep the Sure Step™ exactly where you put it, whether that's on solid ground or a grated surface.

3. NON-CONDUCTIVE FIBER-GLASS

Made from durable, lightweight fiberglass, this step stool lets you work fearlessly around electricity.

ACCESSORIES

WORK PLATFORM

Standing on a ladder for long periods of time can be exhausting. The Work Platform is a ladder accessory that doubles as a comfortable standing platform or tool holder. Enjoy the comfort of standing on a sturdy standing platform, rather than an uncomfortable ladder rung. When used as a tool tray, the Work Platform can hold buckets and tools for convenient access. Rated to hold up to 150 kg, the Work Platform is a versatile accessory that is compatible with many of our multi-position ladders.

AIRDECK®

The AirDeck® workstation is a multi-use tray and handrail accessory designed for your Little Giant® Ladder to help you finish your projects more easily. By using the AirDeck® as a handrail, you can maintain three points of contact on the ladder. With its grooves, slots and fitted recesses, the AirDeck® is perfectly designed as a tool tray to hold your tools, paint containers and other materials. This accessory holds up to 11.5 kg.

TRESTLE BRACKETS

With the Trestle Brackets, you can easily convert your Little Giant® ladder into two secure trestles to support plank scaffolding, saving you the hassle of trips up and down the ladder.

CARGO HOLD™

When you're working on a ladder, you need a space where you can comfortably put your equipment. Made of ballistic nylon and steel, the Cargo Hold™ from Little Giant® is a sturdy tool pouch that attaches to your ladder to keep tools at hand.

FUEL TANK™

Painting while atop a ladder can be frustrating. There usually isn't a place to put the bucket of paint, and most paint trays aren't designed to be used while standing at the top of a ladder. The Little Giant® Fuel Tank™ is a vertical paint tray designed to hold one gallon of paint. With its adjustable hooks, it easily attaches to most Little Giant® ladders.

Plank 6'-9' - 180-270 cm

Plank 8'-13' - 240-390 cm

TELESCOPING PLANK™

The Little Giant® Telescoping Plank™ turns your multi-position ladder into trestle-and-plank scaffolding when you attach Trestle Brackets™* to your ladder. The Plank hooks securely to the ladder rungs of the inner and outer section of your ladder to give you a comfortable, solid platform to stand on while you paint, hang drywall or install light fixtures. The Telescoping Plank™ allows you to replace expensive and labor-intensive scaffolding systems and adjusts to the length you need—available in different sizes. The lightweight Telescoping Plank™ is made from aircraft-grade aluminum and is rated to hold two people with a maximum weight of 225 kg.

*Trestle Brackets sold separately

PROJECT TRAY™

The Project Tray™ is a multi-use accessory designed for your multi-position ladder from Little Giant® Ladder Systems. The Project Tray™ rests securely on your ladder's rungs and acts as the perfect tool tray while you work. The grooves and slots hold almost any tool you will need, including hammers, drills, screwdrivers and power cords. It even has a place to hold your paint can. The magnetic tray holds screws and nails, so you won't have to worry about losing them. The Project Tray™ is rated to hold up to 11kg and is compatible with your Little Giant® multi-position ladder.

QUAD POD

Designed to fit the Little Giant® King Kombo™ ladder, the Quad Pod is Little Giant's patent-pending four-position wall, corner and stud accessory. The Quad Pod attaches to the King Kombo™ in the extension position, allowing you to use your ladder on inside corners, outside corners, walls and studs with ease. Using its durable traction pads, the Quad Pod grips and protects easily damaged surfaces. This accessory also incorporates tool slots, trays and hooks to keep all of your tools at-hand while working.

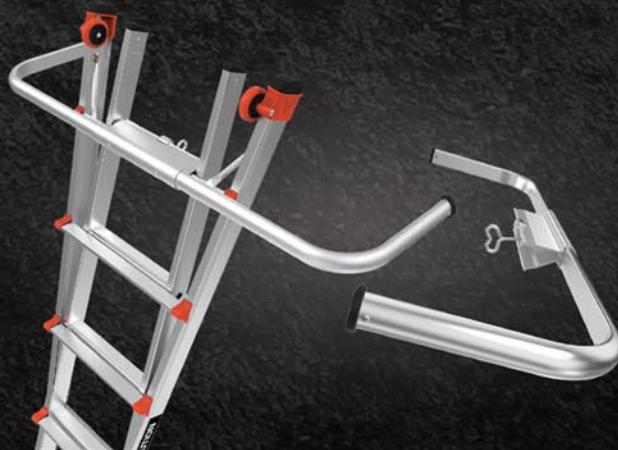

LADDER RACK™

When not properly stored, your ladder can become a tip or trip hazard, which can cause damage or injury to yourself, your ladder or your property. The Ladder Rack™ from Little Giant® helps you save space, while protecting your ladder from damage. This accessory mounts to the studs in the wall at the 43 cm center and holds up to 34kg.

WINGSPAN™

Obstacles like windows can be tricky to work around. The Little Giant® WingSpan™ Wall Standoff wraps around windows and other obstacles, keeping your ladder out from under eaves so you don't have to lean against the rain gutters. The WingSpan™ has a fixed width of 127cm with a stand-off of 30cm. Made from durable aluminum, the WingSpan™ is lightweight and easily attaches to most Little Giant® aluminum and fiberglass articulating ladders.
