

PRO12 MIXER

For over 86 years **MQ Essick** plaster / mortar mixers have set the standard for innovation and durability. The all new, 12 cubic foot capacity, PRO12 series increases contractor productivity in applications using on-site silo dispensing systems. The PRO12 uses a powerful hydraulic drive that is perfect to meet the toughest mix designs. A high capacity fuel tank provides all day running without refueling for maximum productivity. A unique over-center dump design easily discharges material into large mud tubs with minimal operator fatigue. Its compact design, with retractable outriggers, fits easily in the bed of a pickup truck for easy transportation.

Features:

- **Stational design** no wheels
- **Fork lift pockets** accesable all sides
- **Retactable folding stablilizers** up to 130 degree
- **High capacity fuel tank** up to 8.0 hours running timefity
- **Easily fits** in 8 foot bed of pick up truck truck
- **Unique over center dump**, less fatigue loads below operators waist
- **Drum discharges into Mud tub** 24" up to 42" high
- **Dried material** splash plate

Specifications:

Model	PRO12 Stationary 12 cf. over center dump moryar mixer
Capacity	12 cubic feet
Drive System	Hydraulic
Dump Action	Hydraulic
Capacity (Bags)	3 ~ 4
Power Source	Honda GX390 11.7hp (8.7 kW)
Engine Starting	Recoil/Electric
Aggregate	1inch (2.54)
Drum Thickness (inches)	End 3/8", Wrap ¼
Weight	1580 Lbs.
Dimensions	Length 73.5 inches, Width 35.0 inches, Height 45.0 retracted
Adjustable drum discharge. Height	Up to 42.5 inches
