

2011 TECHNICAL SERVICE SCHOOLS

Let Multiquip improve your service skills.

- Need to learn more about the Multiquip products?
- Are you having trouble with the latest service and maintenance techniques?

Multiquip's Field Service Team will show you the way, with the best, and most complete, service training in the industry. We have added additional DCA Generator schools to meet the high demand. The full line of Multiquip products will be showcased in two schools; **STANDARD PRODUCTS** and **POWER GENERATION**.

Standard Product Service Training

Classroom training:

- Basic electrical safety & terminology, power generation theory, GA generator component ID & function, and GA generator wiring schematic reading. Including light towers and welders.
- Compaction theory, rammers, plates, Rammax trench rollers.
- Water pump theory, troubleshooting & repair.
- Concrete/mortar mixers, Whiteman trowels.
- Rebar cutters & benders.

Hands-On training:

- GA generator/welder troubleshooting, testing and load banking.
- Rammer teardown, GX100 engine service,
- Water pump testing
- Trowel service and adjustments.

DCA Generators

Classroom training:

- Basic electrical safety & terminology and grounding.
- Power generation theory, DCA generator component ID & function.
- DCA generator wiring schematic reading.
- Auto-start controller operation and troubleshooting.
- Governor systems, operation and troubleshooting.
- Maintenance Load Banking
- Generator component troubleshooting.
- AVR operation, troubleshooting and adjustments.
- Calibration and testing of components.

Attendance is limited to 12 students per class.

Sign up to reserve your spot today!

Multiquip will supply lodging, breakfast & lunch

Dinner will be the students' responsibility.

IMPORTANT!

Once enrollment is confirmed, a credit card will be required to guarantee your hotel reservations. All attendees will receive a packet with arrival instructions and confirmation by fax or e-mail before class.

If flying, please arrange to arrive the day before your selected training class. Arrange your return flights for departure 3 hours after the close of class on its final day.

Classes may be cancelled by Multiquip if there is not enough registered students.

By enrolling, the attendee agrees that in the event a class is cancelled, Multiquip will make every attempt to accommodate the attendees in the next available class. Multiquip is not responsible for refunding the cost of unused airline tickets or charges imposed by the airlines for changing itineraries.
